

J D Jones & Co (P) Ltd

J D Jones & Co (P) Ltd

Sealing Solutions

INDUSTRIAL POLYMER PRODUCTS

- Moulded, sintered and precision machined parts in PTFE-virgin/filled grades (carbon, graphite, glass, bronze, mos2, special grades), TFM, PEEK etc
- Valve seats
- Valve packing sets, V rings etc
- Rods, bushes, sheets etc
- Non-lubricated compressor piston rings, bearing rings and packing sets
- Paper mill machinery components
- Custom machined parts on request

SPECIALISED GASKETS

Flexible graphite gasket sheets and cut gaskets—non-metallic/metallic/tanged

Special graphite and metal foil laminated sheets and cut gaskets

CNAF cut gaskets

Automotive gaskets

Customised cut gaskets

COMPRESSION PACKINGS

- Braided and die moulded packings in flexible graphite, graphite fibre, carbon fibre, PTFE, aramid, spun aramid, novoloid, spun novoloid, expanded PTFE, graphited PTFE, synthetic/acrylic, cotton, ramie, hybrid etc yarns
- Soot blower packings
- Hollow/solid rubber core packings
- Tank lid packings

These packings can also be manufactured in die formed rings

LOW EMISSION PACKINGS

Low Emission packings available in all braided, as well as combination packings (top and bottom braided, and intermediate moulded) for all kinds of valves. This range of LE packings is approved for demanding standards such as API 622, API 624, API 641, ISO 15848 and SHELL MESC 77/312

GRAPHITE SEALING PRODUCTS

- Flexible graphite rings
- Pressure seal gaskets with top and bottom metal end caps
- Specialised gasket with metal reinforcement, wire mesh etc.
- Customised solutions are available
- Cup-n-cone packing sets for high pressure applications

GRAPHITE LAMINAR SEAL

Specially laminated and machined multi-layered seals made from different layers of metal (duplex, superduplex, SS 316, SS304 etc) with graphite (or metal+PTFE) to minimise friction in the sealing area of butterfly valves. Customised solutions available as per OEM requirements

INSULATION PRODUCTS

- Fibre glass ropes, cloth, tape
- Ceramic fibre ropes, cloth, tapes—metallic/non-metallic, paper, sleeves, mats, gloves
- Silica fibre ropes, cloth, tape, 3D fabrics, mats, gloves
- Speciality insulation products

SPECIALITY LUBRICANTS

Rolgard is a unique high performance and high temperature lithium-based grease reinforced lubricant with PTFE—an ideal multi-purpose greasing solution

EXPANDED PTFE PRODUCTS

Joint sealant tapes
Gasket sheets
Valve stem packings
