Synthetic fibre interlock braided packing impregnated with graphite dispersion

- A general purpose packing with good chemical resistance and high tensile strength
- Thorough impregnation of graphite enhances the chemical resistance and effective sealing provides trouble free start-up and low friction operation

*A filament core provides mechanical strength and dimensional stability*

<b>Service Media and Conditions</b>	Water, chilled water, cooling water, solvent, mild abrasives, brine, salt water, mild acid and alkali, foodstuff etc
<b>Temperature</b>	-100°C to 260°C
<b>Pressure</b>	100 bar (static), 30 bar (rotary), 20 bar (reciprocating)
<b>Shaft Speed</b>	12 m/sec (rotary)
<b>pH</b>	4 to 10
<b>Applications</b>	Pumps and valves in pulp and paper mills
